

Satoshi Fire & Safety policy

V1.0 5 Nov, 2020

In order to prevent fires and be prepared for any fire related emergency, the following shall be observed by all Members of the Satoshi.

- All cabins and spaces must be insured in accordance with Section IV (B, C, D, E, F, and G) of the Satoshi Purchase Agreement, or Section III (B, C, D, E, F, and G) of the Satoshi Master Lease, where applicable.
- Policies offered by Members of the Satoshi shall offer discounts for preventive safeguards including the use of fire resistant materials in construction, monitored smoke detectors, accessible fire extinguishers, and so forth.
- Members should familiarize themselves with emergency and evacuation procedures and the location of fire extinguishers, alarms, water lines, and so forth, which shall be kept readily identifiable and available for viewing by phone, wall charts, and on the emergency coax channel.
- Automatic sprinklers, fire detection and fire alarm systems shall not be tampered with or interfered with without prior consent from Owner.
- No storage of flammable liquids or materials shall be permitted in your Cabin.
- Members must follow all safety procedures dictated by the laws of the flagged state or by international law.

Breach of the above policy would give rise to termination of the Satoshi Purchase Agreement and the termination clause as stipulated in the Satoshi Purchase Agreement would apply.

This policy will be updated as is necessary for insurance purposes or international or flag state treaties may influence.
