

# Pet policy

V1.0 5 Nov, 2020

In order to maintain the high quality of living on the ship and avoid any undue problems with other Members, the following policies for animals shall be in place for Member's pet(s). As accommodation can be made for expanding this pet policy we will expand and revise it as much as can reasonably be done, and on a continual basis.

- All pets must be registered. Untethered pets in public areas must be wearing a tag readily identifying the host, who shall be responsible for their actions as if they were his own.
- Dogs are only allowed in Cabins with a balcony. The Member is responsible for providing a means of cleaning the dog's waste. Pet waste thrown overboard will result in a \$200 fine or equivalent. See potential solution below.
- Member is responsible for the pets of Guests who visit his unit; such pets are subject to the same restrictions as Member pets.
- Member or his Guest must be in full control of his animal when in the public areas and must clean up after it. Pet waste must be removed, cleaned / disinfected within one hour. Failure to do so will result in a fine added to the Cabin fee of \$50 plus the cost of DNA test and test kit replacement when applicable.
- All pets brought to public areas must be kept clean and groomed.
- Business owners and lessees may prohibit the entry of pets on their premises.
- Only domestic animals such as dogs, cats or birds are permitted. Exotic animals are not allowed.
- No animals may exceed 20 pounds.
- A maximum of two animals is allowed per Cabin.
- A \$25 per month pet fee per animal will be added to your Cabin fee.
- Barking or loud noises (that can be heard from inside another Cabin or in public spaces other than the hallway) by your animal must not last more than 10 minutes. If your animal repeatedly disturbs the peace, and complaints are filed, you will be given a notice. After the third disturbance in a month, or the fifth in a year, your animal will no longer be allowed on the ship.
- If your animal initiates aggression against another pet or person, the victim has rights to compensation for any damages.
- Any pet related conflict shall be resolved in accordance with Section V (F) of the Satoshi Purchase Agreement or Section IV (F) of the Satoshi Master Lease, where applicable.
- Support animals shall be allowed as per International law.

Notice: Violation of this policy will result in your pet no longer being allowed on the ship.

It is up to you to determine whether or not your animal will be comfortable in your Cabin and if it is a good fit for the well being of your animal.
